

Karen Lechelt of HFPOA Board Feb 10, 2025

I formally move to censure Board Member Director Don White for his repeated and Unfounded allegations of misconduct against other board members. His hostile efforts to Obstruct the board from conducting essential neighborhood business, coupled with his Refusal to learn or adhere to POA board practices and regulations, dereliction of his Duties as the liaison between the Benton City Council and the POA Board of Directors. His refusal to attend a meeting in a residence of any board member. Furthermore his blatant Disregard for female board members and is continuous dissemination of misinformation And derogatory comments about the POA and its board members through group texts, Verbally, and on social media platforms are unacceptable.

His behavior not only damages the reputation of the POA board, but also negatively impacts Our neighborhood's standing within the community, risking a decline in home values. It is imperative that we address this situation decisively.
